

AL RAAZI
GROUP LIMITED

Company Overview

Al Raazi Group is a Global Trading & Sourcing Company, committed to delivering highquality commodities & raw materials across multiple industries. With a diverse portfolio spanning agro products, precious metals, & industrial metals, we bridge international markets with trusted supply chain solutions.

Our mission is to build longterm partnerships through reliability, transparency, & excellence in every transaction.

Our Core Business Divisions

Agro Products

We supply a broad range of high-demand agricultural commodities, responsibly sourced & competitively priced. From edible oils to essential food grains & nuts, our agro division ensures quality, compliance, & consistent supply.

Palm Oil

Premium palm oil, sustainably sourced & refined for food and industrial use to global standards.

Sunflower Oil

High-quality, cholesterol-free sunflower oil, ideal for cooking & food manufacturing industries.

Avocado

Fresh & export-quality avocados, harvested at peak ripeness & packed for international delivery.

Chickpeas

Protein-rich chickpeas supplied in bulk, sorted and cleaned to meet food industry specifications.

Essential Agro Commodities

We provide a diverse range of essential agro commodities, responsibly sourced from verified suppliers and processed to meet international standards. From natural spices and sweeteners to grains and oilseeds, our products serve food, feed, and industrial sectors with reliability and consistency.

Sugar ICUMSA-45

Refined white sugar (ICUMSA-45), high purity, sourced from verified mills for bulk & wholesale supply.

Cloves

Aromatic and flavorful cloves sourced from certified plantations, used in culinary & medical.

Corn (Maize)

High-quality maize for food, feed, & industrial use, available in yellow and white varieties.

Soyabean

Premium soybeans ideal for oil extraction, feed, and food processing.

Precious Metals

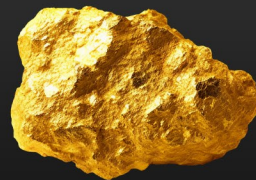

Al Raazi Group is a reliable player in the precious metals sector, offering end-to-end services in gold sourcing, refining, and investment-grade bullion trade. Our operations prioritize ethical sourcing and international compliance.

Mining

Direct involvement in gold mining operations with sustainable extraction practices and certified mine partners.

Raw Gold (23K)

Supplying unrefined 23-karat gold to refineries and traders, sourced from licensed miners with full documentation.

Bullion Gold

Investment-grade gold bullion with 999.9 purity, cast into standardized bars & accompanied by assay certificates

Industrial Metals

We serve global industrial markets with consistent supply of non-ferrous metals. Our metals division caters to manufacturers, recyclers, and trading partners looking for high quality raw and scrap materials.

Copper Cathode

Grade A electrolytic copper cathodes with 99.99% purity, suitable for electrical & industrial applications.

Copper Wire (Scrap)

Clean, high-conductivity copper wire scrap available in large quantities, ideal for recycling and remelting.

Aluminium Ingot

Virgin aluminium ingots produced under strict quality control, used across automotive, construction, and packaging sectors.

Aluminium Scrap

Recyclable aluminium scrap, sorted & processed for industrial reuse with minimal impurities.

Why Choose **AI Raazi Group?**

Global Reach, Local Expertise

Strong sourcing like networks across Africa, South America, Asia, & the Middle East.
